**CMG GardenNotes #103**

**Reading Pesticide Labels Worksheet**

Find the answers to the questions on the label provided.

Instructors: the numbers in text boxes correspond to the location for the answers.

1. **What are the active ingredients?**
   
   Sulfur (0.20%) and Pyrethrins (0.01%). (Under CAUTION on front of pesticide label.)

2. **Can I apply this product to lilacs? The plant has powdery mildew and aphids.**
   
   Yes, the use site and pests are on the label. Look in “Pest” box next to “Ornamentals” box. Note: even if only the site was on the label (“lilacs” or “trees and shrubs”) it would still be okay to apply the product.

3. **I've applied this to my cabbage crop. How long do I have to wait after the application to eat it?**
   
   One day.

4. **What is the mode of action for this product?**
   
   It is a “contact killer”. See the green paragraph above “the “Quick Facts” bar.

5. **Will this product harm freshwater clams?**
   
   Yes – they’re freshwater invertebrates. (See “environmental hazards”).

6. **What action do I take if I accidentally spill this product on my shirt sleeve?**
   
   Take off contaminated clothing. If you get it on your skin, rinse it immediately with plenty of water for 15 -20 minutes. You can also call your doctor or poison control center.

7. **How do I dispose of the empty container?**
   
   Label directions say to place in trash or recycle if the service is available.

8. **How should I store this product?**
   
   Store at room temperature and keep from freezing.

9. **Can I use this product in my greenhouse where I grow culinary herbs for sale?**
   
   No, the label states the product is only for use on home gardens and lawns. It is not to be used on commodities for resale.
