

# Tony Koski, PhD

Instructor for Turfgrass Management (online course) & Weed Management

Dr. Tony Koski has been the Extension Turf Specialist and a professor at Colorado State University since 1988. He teaches turfgrass management and advises turf management students in the Department of Horticulture and Landscape Architecture.

As an Extension specialist, he works with all facets of Colorado's professional turf management industry, including the golf course industry, sports turf, professional lawn care, and sod production. His research interests include landscape water management, weed control, turf fertility and soil management.

He received his M.S. and Ph.D. degrees from The Ohio State University.

In addition to his University work, Dr. Koski has served as a volunteer Colorado Master Gardener in Larimer County since 2011 primarily managing the Farmers' Market outreach.
