## CMG GardenNotes \#151

Worksheet: Plant Structures
The objective of this work sheet is to give students experience systematically looking at plant parts and connecting what they see with print information.

## 1. Flower Parts

Using your real flower specimen, locate the flower parts that are present. Not all flowers will have all parts present. Fill in the blanks below using the picture of a flower having all parts present, i.e., a perfect flower. Reference GN135, Plant Structures: Flowers.

NOTE: Brackets below (in picture) indicate collective structure.
$\square$ Anthers
$\square$ Calyx
$\square$ Corolla
$\square$ Filament
$\square$ Ovary
$\square$ Pedicel
$\square$ Petals
$\square$ Pistil
$\square$ Receptacle
$\square$ Sepals
$\square$ Stamen

$\square$ Stigma
$\square$ Style
BONUS: Based on GN136, what does a mature ovary look like on an apple tree?

## 2. Identify the Type of Flower

Use what you know about these flowers OR look them up to identify the inflorescence or flower arrangement on a stem. Reference GN135, Plant Structures: Flowers

| Flower | Inflorescence <br> Type |
| :---: | :---: |
| Allium |  |
| Sunflower |  |
| Foxglove |  |

| Flower | Inflorescence <br> Type |
| :---: | :---: |
| Achillea |  |
| Poppy |  |
| Calla Lily |  |

## 3. Identify the Type of Fruit

Use what you know about these fruits OR look them up to identify the fruit type. Reference GN136, Plant Structures: Fruit.

| Fruit | Fruit Type |
| :---: | :---: |
| Apple |  |
| Peach |  |

| Fruit | Fruit Type |
| :---: | :---: |
| Tomato |  |
| Raspberry |  |

## 4. Annual Growth

Use branch samples provided in class. Reference GN133, Plant Structures: Stems.
Examine young branches and twigs, looking for the annual growth increments (terminal bud scars). Based on the terminal bud scars, measure the annual growth for the past three years to the nearest inch.

NOTE: The annual growth rings are easy to read on some species and more difficult on other species.

| Branch Sample 1 | Branch Sample 2 |
| :--- | :--- |
| New growth, season/year 1. | New growth, season/year 1. |
| Previous growth, season/year 2. | Previous growth, season/year 2. |
| Three years back, season/year 3. |  |
